

**Listing of Claims/Amendments to the Claims:**

The listing of claims that follows will replace all prior versions in the application.

1. (Currently Amended) A ~~pressurized-fluid-consuming device~~ (14, 15) system, comprising at least one pressurized-fluid consuming device and at least one secondary consumer device, said at least one secondary consumer device being constructed and arranged for drawing pressurized fluid from at least one pressurized-fluid storage reservoir (8, 9, 10), wherein ~~the~~ said at least one pressurized-fluid storage reservoir (8, 9, 10) is additionally ~~designed~~ being constructed and arranged to supply ~~further~~ said at least one pressurized-fluid-consuming devices (11, 12, 13), and wherein ~~the~~ said at least one secondary consumer ~~pressurized fluid consuming~~ device (14, 15) including means for receiving ~~receives~~ a determined value of state of ~~the~~ said at least one pressurized-fluid storage reservoir (8, 9, 10) and ~~for~~ drawing pressurized fluid from ~~the~~ said at least one pressurized-fluid storage reservoir (8, 9, 10) only if ~~when~~ the ~~said~~ value of state reaches at least a predetermined minimum value.

2. (Currently Amended) A ~~pressurized-fluid-consuming device~~ system according to claim 1, characterized in that ~~wherein the~~ said value of state indicates ~~the~~ at least one of (i) ~~pressure in the~~ said at least one pressurized-fluid storage reservoir (8, 9, 10) or the and (ii) quantity of air contained therein or the and (iii) mass of air contained therein or the and (iv) energy stored therein.

3. (Currently Amended) A ~~pressurized-fluid-consuming device~~ system according to ~~at least one of the preceding claims~~ claim 1, characterized in that ~~the~~ wherein said ~~pressurized-fluid-consuming~~ secondary consumer device (14, 15) draws pressurized fluid from ~~the~~ said at least one pressurized-fluid storage reservoir (8, 9, 10) only if ~~when~~ the ~~said~~ value of state ~~lies in~~ is within a predetermined range.

4. (Currently Amended) ~~A~~The pressurized-fluid-consuming devicesystem according to claim 1, characterized in that the furtherwherein said at least one pressurized-fluid-consuming devices (11, 12, 13) containincludes at least one vehicle brake systemof a vehicle, especially a service brake system.

5. (Currently Amended) ~~A~~The pressurized-fluid-consuming devicesystem according to at least one of the preceding claimsclaim 1, characterized in that the pressurized-fluid-consumingwherein said at least one secondary consumer device (14, 15) is provided withincludes aat least one port (18, 19) for connection to a data bus (16) and is capable of receiving and means for receiving a signal indicating thesaid value of state from thesaid data bus (16).

6. (Currently Amended) ~~A~~The pressurized-fluid-consuming devicesystem according to at least one of the preceding claimsclaim 1, characterized in that the pressurized-fluid-consuming device (14, 15) is capable of receiving aFurther comprising a pressurized-fluid supply device for filling said at least one pressurized-fluid storage reservoir, and wherein said signal that indicates theindicating said value of state and that is transmitted by at least one of asaid pressurized-fluid supply device (1) used to fill the pressurized-fluid storage reservoir (8, 9, 10) or by and an electronics unit of thean instrument panel.

7. (Currently Amended) ~~A~~The pressurized-fluid-consuming devicesystem according to at least one of the preceding claimsclaim 1, characterized in that the pressurized-fluid-consumingwherein said at least one secondary consumer device (14, 15) is designedconstructed and arranged for use in a vehicle, is capable of receiving said at least one secondary consumer device including means for receiving a speed signal indicating the vehicle speed, and, when thesaid speed signal is smallerless than a predetermined value of speed,

~~draws~~drawing pressurized-fluid from ~~the~~said at least one pressurized-fluid storage reservoirs (8, 9, 10) on demand even ifwhen ~~the~~said value of state has not reached ~~the~~said predetermined minimum value.

8. (Currently Amended) ~~A~~The pressurized-fluid-consuming ~~device~~system according to ~~at least one of the preceding claims~~claim 1, characterized in that the pressurized-fluid-consumingwherein said at least one secondary consumer device (14, 15) is a vehicle level-control system for a motor vehicle.

9. (New) The pressurized-fluid consuming system according to claim 4, wherein said at least one vehicle brake system is a service brake system.
